

## DESIGN STATEMENT

The design of “DOTS BUS” come from an awareness in an in effective (BMTA) in Bangkok with high floor bus type. At the some time , we all recognize that low – floor bus type can serve life rally “everday” using in Bangkok – Universal

In high competitive social of Bangkok , With stress people become more un healthy in metropolis environment such as high density traffic and everyday work. There is a new business model called “start – up business ” The idea of This new business type came to break the concept of an old stype office,people in the new office need more creative space to work comfortably and bored of working in same place again and again. “DOTS BUS” was design to answer the new concept of start-up business office.

Tranforming a normal BMTA bus to a new look co – working space.“DOTS BUS” is a low-floor bus with function of morable office driving on the road with design to serve everyone in Bangkok society , we care to apply an idea of universal design to make te final product suit with everyone. In everyday life!!
